

Selected Projects

■ Sheikh Shakhbout Medical City (Abu Dhabi, UAE)

Assessment of existing stormwater system including the discharge lagoon and upgrade of the system to accommodate 1:100 years rainwater.

The stage one study revealed significant issues with the existing system, such as an underdesigned stormwater network and storage lagoons.

■ New Roads at Bani Yas (Abu Dhabi, UAE)

Engineering design for new roads and several utilities: water, wastewater, stormwater, power, telecommunication networks and traffic and road design.

Due to the safety requirements of Abu Dhabi Authorities, the DMT team conducted a Road Safety Audit to ensure the safety of the exit and entry of each road.

DMT GROUP

Excellence and innovation in everything we do – this is our claim as an independent, global engineering and consulting company in the construction, mining, plant and mechanical engineering sectors. DMT is the “Engineering & Natural Resources” division of the TÜV NORD GROUP.

Sustainable value creation for our clients is always the goal – knowledge, digitalization and internationalization are our success factors. To this end, we count on our 1,100 employees, 14 subsidiaries, 30 locations and 280 years of experience.

In infrastructure, civil engineering and mining, we are general planners and specialists. We implement system and individual solutions in every discipline and bundle competencies for consulting, engineering, tendering, implementation, monitoring, operation and refurbishment, ensuring planning and investment safety for our customers.

We call this engineering performance.

Engineering
Performance

TÜVNORDGROUP

Our Roads and Utilities Services:

Planning:

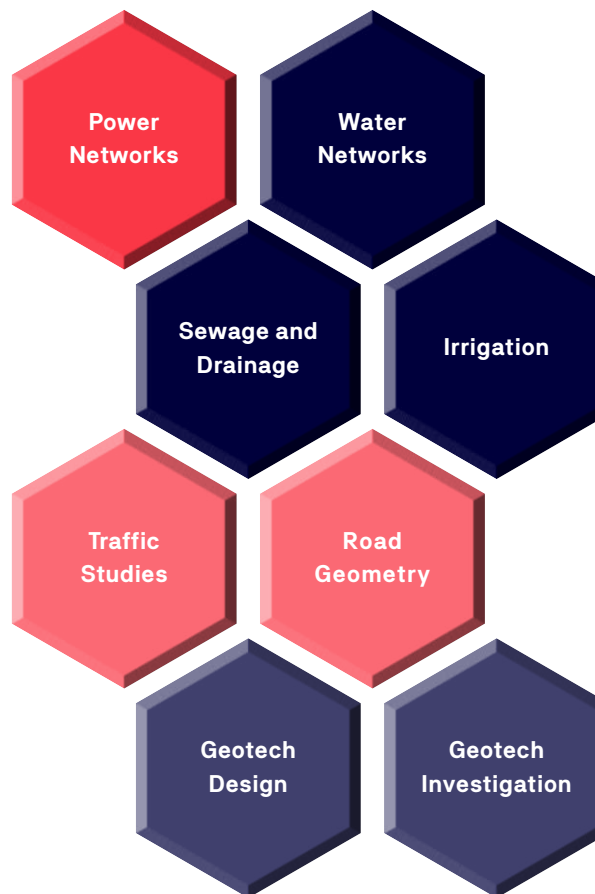

- Water networks design
- Sewage and drainage networks design
- Design of lagoons for rainwater catchment
- Landscape irrigation networks design
- Pump stations and substations design
- Power and street lighting networks design
- Road geometry, traffic route construction and pavement

Complementary services:

Take advantage of our extensive know-how!

- Integral groundwater management
- Hydraulic engineering
- Water resources
- Geotechnical design of slopes, excavation pits and foundations
- Environmental studies
- Real-time monitoring

All utilities – One partner: DMT

New infrastructure development?

Our specialists' experience allows us to deliver optimal solutions for roads, highways and utility design. DMT stands for qualitative and commercial success in projects.

With DMT, you are in good hands!

- Take advantage of our experience and expertise in road and utility design
- One-stop-shop design, project management, on-site supervision and operation
- In-house survey and real-time monitoring services
