DMT subsidiary joins umbrella brand

Wesemann now operates under the name DMT Engineering Surveying

Essen, Germany, 01.10.2018. On August 1, 2018 Wesemann was renamed DMT Engineering Surveying and changed its legal form into a GmbH & Co. KG. "We are thus strengthening the DMT engineering brand," explains DMT Managing Director Jens-Peter Lux.

Dr.-Ing. Wesemann Gesellschaft für Ingenieurgeodäsie mbH became part of the DMT group in 2015. Since then Wesemann strengthened the DMT service portfolio in the areas of infrastructure and engineering with services such as engineering surveying, line engineering and geoinformation. With the name change to DMT Engineering Surveying GmbH & Co. KG, the company's affiliation with the DMT Group is now also visible in the company name, thus strengthening the DMT engineering brand.

Stefan Kruse, who has been managing director of the company since 2004, and Dr. Ralf Fritschen will remain managing directors. Fritschen heads the Engineering Surveying & Geomonitoring business segment at DMT and was additionally appointed to the management of the subsidiary on 1 June 2018

"We have been successful in the DMT group of companies for three years", says Kruse, "and I am very pleased that the new name is now making it clear to the outside world that we belong to the internationally active DMT Group".
